Year of Completion: 2014
CBSE Board (Delhi Public School, Moradabad)
CGPA : 10.00/10

POSITIONS OF RESPONSIBILITY

- TED Talks Organising Member in University

TRAININGS

Improving Deep Neural Networks: Hyperparameter Tuning, Regularization And Optimization

Coursera (Online)
Sep 2019 - Sep 2019

Through this course I learned about various variance regularization methods and dropout methods. I learned about exponential weighted averages, algorithms like Gradient Descent, RMSProp, ADAM optimization.

Neural Networks And Deep Learning

Coursera (Online)

Sep 2019 - Sep 2019

I learned about Neural Networks and the basic building blocks of Neural Network. I learned how to avoid the explicit waste of time by working on python libraries as numpy and pandas.

Convolutional Neural Network

Coursera (Online)

Jul 2019 - Aug 2019

I learned how to train the neural networks and how the convnets work. Object detection and Image Processing core skills have been improved.

JAVA And ORACLE 10g TECHNOLOGY

The Compiler Tech , Moradabad (Moradabad)

Jun 2018 - Jul 2018

got training of the:
1) core java
2) Java Database Connectivity
3) Software application development
4) have build a local host Railway Reservation System

PROJECTS

RAILWAY RESERVATION SYSTEM

Mar 2019 - Apr 2019

https://github.com/narendra2202/Railway-project

This is a dummy of localhost railway reservation system in which :
A software application is there to validate the user identity by confirming password and booking and cancelling tickets and viewing trains from different
locations.
